MySQL | HTML | Web Development | Object-Oriented Programming | CSS | Bootstrap | JavaScript | JQuery | PHP | Github | Git | JSON | C#

VOLUNTEERING

14/11/2023 – CURRENT Turkey

Competition Under the Name of Junior Achievement

We produce candles from waste oil to contribute to nature. We established our own company for the competition format. I work in the research-development department of this company we established. I also code the web page of our company by myself. Our goal is to pass the competition stages and win the final. If we win, we will open an exhibition in Italy with the finalists from each country.

Our company website : <https://ecotechgenbizz.com/>

PROJECTS

CURRENT

Projects

A small store example I made to reinforce while learning CSS;
https://github.com/M3R1ttt/magaza_ornek

A quiz on literary works that we made for a TUBITAK project at our school. Two of us worked together on this project. The project is still under construction;
<http://ceptesahaf.com>

A web page I made for a contest. It is also the first site I wrote and published completely on my own;
<https://github.com/M3R1ttt/EcoTech>

Also my GitHub account and portfolio ;
